

SENATE PASSES DAYLIGHT BILL

Sets Clock Back One Hour for Seven Months, Beginning March 31

EXPECTED TO SAVE COAL

Measure Goes to President, Who Will Probably Sign at Once

Washington, March 18.—The Senate Saturday passed without division the daylight saving bill, as amended by the House, so as to extend the period of daylight saving from the last Sunday of March each year to the last Sunday of October each year instead of the last Sunday of April and September as drafted originally by the Senate. The bill now goes to the president, who will sign it immediately. It will save 1,000,000 tons of coal and \$40,000,000 in lighting bills, its proponents say.

There was hardly a ripple of attention given the measure in the Senate except that Senator Calder, the author of the Senate measure, withdrawn in favor of the House bill, devoted a few minutes to a panegyric on the subject of daylight saving after the bill had been passed. Senator Calder said in part:

"People live by custom. Eighty per cent of the people of the United States rise in the morning, allow only sufficient time to dress, eat breakfast and arrive at their place of employment just

TAKE PEPTIRON NOW

Needed in the Spring by Pale, Weak, Nervous People.

Peptiron is in the form of pills, chocolate-coated, pleasant to take, easily assimilated, and is the most successful combination of iron of which its makers, C. I. Hood Co., Lowell, Mass., have any knowledge.

You must have an abundance of iron in your blood if you are to be keen, quick and fit in the battle of life, overcome obstacles and know no such thing as failure. For several reasons lack of iron in the blood is more noticeable in the spring than at any other time.

Besides iron, Peptiron includes pepsin, nux, celery and other tonics, nerve helps and digestives. It gives strength, color and body to the blood; restores pale cheeks, steadies the nerves, improves the digestion, nourishes and gives stamina to the whole body.

It is the tonic spring medicine for you and for your family.—Adv.

at the stroke of the time to begin their day's work. If their time to start work is 8 o'clock, under the new arrangement it will still be 8 o'clock.

"Street railways, suburban and inter-urban transit facilities will be operated upon the same theory, and there will be no difficulty at all about the changed conditions. In fact, after the first day no one will be inconvenienced or confused. Under the operation of this plan the worker begins his day by the same clock time as formerly but actually one hour earlier, and when the day's work is done there is an hour more of daylight, which under the present standard he does not enjoy."

To Cure a Cold in One Day

Take LAXATIVE BROMO QUININE (Tablets). It stops the Cough and Headache and works off the Cold. E. W. GROVE'S signature on each box. 30c.—Adv.

SAVE, SAVE, ON WHEAT

Situation Serious, Says the U. S. Food Administrator

VISIBLE SUPPLY REPORT OPTIMISTIC

Up to the American People to Economize More and More

Washington, March 18.—Further limitation of wheat consumption in the United States is under consideration by the food administration, to make certain that the subnormal visible supply will tide over the American people and their allies until the next harvest.

Plans for accomplishing the additional saving are being worked out carefully, and the only bar to success feared by officials is the senseless hoarding which may be practiced by unthinking and selfish people.

The seriousness of the wheat situation was shown yesterday by a department of agriculture report on the supply in country elevators and mills, which was supplemented by a frank admission at the food administration that existing flour stocks are only 30 per cent of the normal quantity needed until July 1. Food administration officials thought the department's estimate of 180,000,000 bushels of wheat in elevators and on

"CASCARETS" FOR HEADACHE, COLDS, LIVER, BOWELS

Enjoy Life! Don't Stay Bileous, Sick, Headachy and Constipated

Get Rid of Bad Breath, Sour Stomach, Coated Tongue, Indigestion

Get a 10-cent box now.

They're fine! Cascarets given your liver, clean your thirty feet of bowels and sweeten your stomach. You eat one or two, like candy, before going to bed, and in the morning your head is clear, tongue is clean, stomach sweet, breath right and cold gone. Get a box from your druggist and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced.

Cascarets stop sick headache, biliousness, indigestion, bad breath and constipation. Mothers should give a whole Cascaret to cross, bilious, sick, feverish children any time. They are harmless and never gripe or sicken.—Adv.

farms March 1 was optimistic, and said their best information was that 125,000,000 bushels was the greatest amount that could be expected.

The allies have been promised 90,000,000 bushels of grain between Jan. 1 and July 1. There is no intention of failing to carry out this program, which is regarded as the most important duty now confronting the American people. Owing to shortage of transportation, the greater part of the export program remains to be carried out, and the wheat must be obtained from the scant supply in country by curtailment of individual consumption. The only alternative to failure in the opinion of food administration officials is sacrifice by individuals.

Wheat holdings at country mills and

elevators on March 1 were estimated Saturday by the department of agriculture at 68,972,000 bushels. That is about 20,000,000 bushels less than was held March 1 last year, and 80,000,000 bushels less than in 1910.

Statistics of holdings by states show that in Kansas, Montana, Washington and Oklahoma the supplies are much lower than last year.

State	1918	1917
Pennsylvania	3,183,000	4,180,000
Ohio	3,703,000	2,592,000
Indiana	2,337,000	1,944,000
Illinois	2,128,000	1,510,000
Michigan	1,217,000	1,594,000
Minnesota	6,596,000	4,226,000
Missouri	2,479,000	1,989,000
North Dakota	6,160,000	5,112,000
South Dakota	5,202,000	2,482,000
Nebraska	820,000	8,912,000
Kansas	2,207,000	6,580,000
Oklahoma	1,070,000	2,663,000
Montana	2,444,000	6,018,000
Washington	5,844,000	10,161,000

TO SUPERVISE PACKERS' BOOKS.

Gore's Measure Calls for Federal Inspection.

Washington, March 18.—An amendment to the agricultural appropriation bill, placing under the supervision of the secretary of agriculture the books of the packers of the country was introduced Saturday by Senator Gore of Oklahoma.

Recent disclosures made before the agricultural committee and the federal trade commission, Senator Gore said, led him to introduce the measure.

FAIR, SEASONAL TEMPERATURE.

Weather Bulletin for the Week Indicates Something Like Spring.

Washington, March 18.—Predictions for the week, issued by the weather bureau Saturday, are:

Present pressure distribution indicates that fair weather will prevail generally throughout the country during the week with temperature above the seasonal average as a rule.

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

WASHINGTON COUNTY FARM BUREAU ASSOCIATION.

Notes for Week Ending March 16.

Calls on the agent at headquarters, 65; letters written, 60; meetings held, 1; attendance, 70; farm visits, 2; miles traveled, 16.

Hurry up your spray material order. The exchange is prepared to handle a supply of blue vitriol, arsenate of lead and paris green at good prices. Orders must be in at once if you want these prices. Some of the shipments of seed corn have arrived and are in good condition. Syrup cans and sugar pails have also arrived. All the supply of these have been taken by members. There is still a small supply of 10-pound wood fibre packages for the maple sugar, which members can have at 10 cents each. I can recommend these from the word of users last year. Mr. Dodge has been in Addison county this week to purchase some Vermont grown seed wheat. We believe native wheat better for seed than the western grown, provided it is clean and plump.

Farm Labor.

A recent publication from Washington gives light on the labor situation thus: Our country was organized for peace. The war has upset all conditions. The demand for labor to build ships and military camps has destroyed the balance of labor between the industries. The U. S. department of agriculture is doing all that it can to make a readjustment. We should each help all we can. Special farm labor organizers have been placed by the government in almost every state to lead the way. It has been determined that the farm labor shortage must be made up from the ranks of the village and city communities. To this end in Washington county, the farm bureau will take up the matter of performing the services of a labor bureau, free of charge to all concerned.

The results of the survey of labor needs as taken by the school children last week will be kept on file in this office and those farmers who want help who have not filled out one of the blanks are invited to send their request for labor to this office direct. As soon as we have a list of the farmers desiring help, we will carry out a plan of local advertising, as was done last year. Your co-operation is requested. If you want help send in your name. It can do no harm and we may be able to find the help for you, though we can make no promises.

F. H. Abbott, County Agent.

ORANGE COUNTY FARM BUREAU.

Notes for Week Ending March 16.

The Windsor County Jersey Breeders' Association.

held their second annual meeting at Woodstock Friday of this past week. The county agent was present and asked if they would enlarge the territory which their organization would cover to include part at least of Orange county as the White river valley was the Jersey section of both counties. This they were very glad to do and so they extend a cordial invitation to Orange county Jersey breeders to join their organization. L. L. Mounce of South Woodstock is secretary. E. F. Kirby of Randolph Center was present and became a member and was elected a director to represent this county. The purpose of this organization is to bring breeders in closer touch with each other, stimulate enthusiasm and interest in the Jersey, provide opportunities for knowing what other Jersey breeders are doing, encourage the use of better bulls and assist in advertising the possibilities of this section as a place where good Jerseys may be bought. It is hoped that a consignment sale may be held this coming year.

The North Randolph Cow Testing association held its annual meeting in the county agent's office Saturday of this week. The old officers were re-elected. Talks by Prof. G. L. Green of Randolph Center and O. M. Camburn of the state department of agriculture were given. Mr. Green emphasized the needs of the country in this time of war. Mr. Camburn the value of using better sires and keeping those who were proving good. The association plans to continue this coming year with an increased membership and interest. Here is an opportunity for men in this vicinity to become members of this co-operative organization to find out more concerning their cows and efficient feeding. In this time of high prices and uncertain markets, the need of weeding out the unprofitable cow is more necessary than ever before. The cow test association gives an opportunity to have the information necessary to do this intelligently brought to you at a nominal cost. The county agent will be glad to talk it over with any farmer and put you in touch with the officers for joining. In view of the fact that some have misunderstood the purpose of the co-operative testing which the county agent has been trying to do at different creameries, he would like to state that his work is not intended to replace the cow test association work. It was started to help those who because of small size of herd or other reason could not join such an association. The cow association is worth much more to the man with over 15 cows. It is regular, while the co-operative testing is irregular, it is done entirely by an outside man, while in co-operating with the county agent all samples and weights are taken by the owner, thus reducing their value as being made by an impartial worker, the owner has an opportunity to talk with the tester who is in the work all the time and in the barn, while the county agent is limited to the information he gets from the owner. It is hoped that as many of those who have

Does the Shoe fit?

If you are unfortunate enough to have corns or other foot troubles, nine chances in ten they have come from a pair of shoes that did not fit your feet.

Regal Shoes

are made in so many styles and shapes that any foot can be fitted so that you can forget your foot troubles. Quarter sizes, too, make the fitting easy.

Shoes that fit and shoes that wear—at at reasonable prices—that is the creed of the Regal. In Barre, they can be had only at this store.

Moore & Owens

Barre's Leading Clothiers

been co-operating with the county agent will join a cow test association.

Recipe for the week: Potato Pastry—One-half cup mashed potato, one-half cup flour, one-fourth teaspoon salt, one-fourth teaspoon baking powder, one-fourth cup fat. Mix together the dry ingredients, and combine them with the potato. Cut in the fat in the usual way, and roll on the pastry. This recipe makes enough for a one-crust pie. The crust may be baked before the filling is added.

Summary for week ending March 16: Mr. Loveland—Days in office, 27; days in field, 33; calls on agent, 10; letters written, 40; meetings, 1; attendance, 30; miles traveled, 120. Miss Dutton—Days in office, 3; days in field, 3; calls on agent, 0; letters written, 12; demonstrations given, 4; attendance, 90; miles traveled, 140.

E. H. Loveland, County Agent.

VINOL MAKES GOOD BLOOD

Positive—Convincing Proof

Many so-called remedies for anemia are only so in name. Their makers are afraid to prove their claims by telling what their medicines contain.

The only way to be honest with the people is to let them know what they are paying for. Here is the Vinol formula. When the doctor knows what a medicine contains, it ceases to be a "patent" medicine.

R Cod Liver and Beef Peptones, Iron and Manganese, Potassium, Iron and Ammonium Citrate, Lime and Soda Glycophosphates, Cascarin. Any doctor will tell you that the ingredients of Vinol, as named above, will enrich the blood and banish anemia and create strength. When the blood is pure and rich and red, the body is strong and robust.

You can prove this at our expense because your money will be returned if Vinol does not improve your health.

Get Vinol from your druggist, or from the Vinol Co., Dept. 2A, Boston. Sold everywhere. Soap 25c, Ointment 25c and 50c.

Let Cuticura Soothe Your Itching Skin

Nothing purer, sweeter or more effective for rashes, itching and irritations. The Soap to cleanse and purify, the Ointment to soothe and heal. They prevent skin troubles if used for every-day toilet purposes. For free samples address: "Cuticura, Dept. 2A, Boston." Sold everywhere. Soap 25c, Ointment 25c and 50c.
